About the institute...

Join us for an opportunity to experience current watershed management and water resource issues on the Missouri River. While exploring the issues and identifying solutions, participants will receive real world, user friendly and classroom ready instruction from specially trained Project WET facilitators, resource professionals, and scientists.

Participants will experience hands-on, minds-on learning through a balance of presentations, discussions, activities, field tours, and environmental investigations and will be able to transfer the institute's field studies to practical classroom applications.

Discover, explore, and experience some of the region's unique water resource sites in the Missouri River watershed.

See, hear, live, and feel the pulse of the Missouri River watershed through some of the region's foremost experts on water resources, watershed science, and social issues.

Complete several environmental investigations to understand methods for determining overall watershed quality.

- Biological, Chemical & Physical Assessments
- Stream Flow & Cross-Section Assessments
- · Stream Habitat Assessment

Learn about and complete hands-on activities.

- Healthy Water, Healthy People Educator's Guide & Field Monitoring Manual
- Access to online resources and classroom ready materials
- Participate in fun-filled, hands-on educational activities and events while learning
- Tour major sites in the Missouri River watershed
- Make and take classroom materials and kits

NEED GRADUATE CREDIT?

Credit, Costs, Scholarships

This year we offer up to four credits. Participants can receive four semester graduate credits through **MISU**, **UND**, or **NDSU**. There is a \$50 per credit fee payable to the preferred institution. The fee for graduate credit is in addition to the Watershed Institute fee.

Participants must register here. https://www.dwr.nd.gov/adminlink/4dcgi/wet/WET-3 prior to registering for credit. You may participate in the institute without registering for credits. The \$200 registration fee covers your room, meals, materials, instructors, and educational resources.

Your local water resource district, school staff development funds, or local soil conservation district may offer full scholarships. Participants are responsible for contacting their local districts. To find your local district, www.dwr.nd.gov/info edu/water links/.

ND Association of Soil Conservation Districts https://www.ndascd.com/nd-soil-conservation-districts

"A lot of time, effort, planning, and energy went into planning this institute. All of the instructors and presenters were dedicated to making this a wonderful learning experience for us all with the hopes that we can influence our students to understand and enjoy aspects of nature."

Mari Baldwin, 3rd Grade Elementary Education, Minot, ND
