mplete the water use information for the po	* *	below. A point of dive	ersion is the location f	rom which you are	approved to divert water.	•
mplete the water use information for the pose location of the irrigated land. If more that of meach point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 06	pint(s) of diversion listed in one well or pump site i vater use field is required	below. A point of diversity of the point of	ersion is the location for the ved point of diversion,	rom which you are , please provide th , please indicate "N	approved to divert water. e cumulative volume of wa lot Developed" next to the	ter pumped
mplete the water use information for the peel location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 06 Number of acres irrigated from the location of the lo	pint(s) of diversion listed in one well or pump site in the vater use field is required to the control of the c	below. A point of division of division of the point of diversity of the point of division	ersion is the location f ved point of diversion, rsion is not developed,	rom which you are , please provide th , please indicate "N	approved to divert water. e cumulative volume of wa	ter pumped
mplete the water use information for the peel location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 06 Number of acres irrigated from the location of the lo	pint(s) of diversion listed in one well or pump site in the vater use field is required to the control of the c	below. A point of division of division of the point of diversity of the point of division	ersion is the location for the ved point of diversion,	rom which you are , please provide th , please indicate "N	approved to divert water. e cumulative volume of wa lot Developed" next to the	ter pumped appropriate
mplete the water use information for the pose location of the irrigated land. If more that meach point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 06	pint(s) of diversion listed in one well or pump site in the vater use field is required to the control of the c	below. A point of division of the point of division of the point of diverse of the point of division of divisio	ersion is the location for yed point of diversion, ssion is not developed, Rng.	rom which you are , please provide th , please indicate "N	approved to divert water. e cumulative volume of wa lot Developed" next to the	ter pumped appropriate
mplete the water use information for the pre location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 06 Number of acres irrigated from the Location of Acres Irrigated: Pumping Rate 800	point(s) of diversion listed in one well or pump site it vater use field is required in a diversion site 1/4 Sec. 1/4 Sec.	below. A point of division of the point of diversity of diversity of the point of diversity of d	ersion is the location fived point of diversion, sion is not developed, Rng. Rng.	rom which you are , please provide th , please indicate "N Crop Typ	approved to divert water. e cumulative volume of wa lot Developed" next to the	ter pumped appropriate
mplete the water use information for the poet location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. Of Number of acres irrigated from the Location of Acres Irrigated: Pumping Rate 800 Number of hours pumped End of season meter reading	bint(s) of diversion listed n one well or pump site is vater use field is required 87 (Ground Wate) his diversion site 1/4 Sec. 1/4 Sec. Pump H.P. 75	below. A point of division of the point of diversity of diversity of the point of diversity of diversity of diversity of the point of diversity of d	ersion is the location fived point of diversion, sion is not developed, Rng. Rng.	rom which you are , please provide th , please indicate "N Crop Typ	approved to divert water. e cumulative volume of wa lot Developed" next to the pe : Corn 79.3 acr	ter pumped appropriate
mplete the water use information for the poet location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. Of Number of acres irrigated from the Location of Acres Irrigated: Pumping Rate 800 Number of hours pumped End of season meter reading	bint(s) of diversion listed n one well or pump site is vater use field is required 87 (Ground Wate) his diversion site 1/4 Sec. 1/4 Sec. Pump H.P. 75	below. A point of division of the point of diversity of diversity of the point of diversity of diversity of diversity of the point of diversity of d	ersion is the location fived point of diversion, sion is not developed, Rng Rng (circle: Hour me	rom which you are please provide the please indicate "N Crop Type	approved to divert water. e cumulative volume of wa lot Developed" next to the pe : Corn 79.3 acr	ter pumped appropriate
mplete the water use information for the pre location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 06 Number of acres irrigated from the Location of Acres Irrigated: Pumping Rate 800 Number of hours pumped	bint(s) of diversion listed n one well or pump site is vater use field is required 87 (Ground Wate) his diversion site 1/4 Sec. 1/4 Sec. Pump H.P. 75	below. A point of division of the point of diversity of diversity of the point of diversity of diversity of diversity of the point of diversity of d	ersion is the location for the location of diversion, sion is not developed, Rng. Rng. (circle: Hour me	rom which you are please provide the please indicate "N Crop Type Peter, estimated acre-feet, cub	approved to divert water. e cumulative volume of wa lot Developed" next to the pe: Corn 79.3 acr , calculated) Calcula	ter pumped appropriate Ce-fee
mplete the water use information for the poet location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 08 Number of acres irrigated from the Location of Acres Irrigated: Pumping Rate 800 Number of hours pumped End of season meter reading Beginning of season meter reading	point(s) of diversion listed in one well or pump site is vater use field is required in the state of the stat	below. A point of division of livers and appropriate in the point of diversity of diversity of the point of diversity of d	ersion is the location fived point of diversion, sion is not developed, Rng Rng (circle: Hour me (circle: gallons, (circle: gallons,	crom which you are please provide the please indicate "N Crop Type eter, estimated acre-feet, cub acre-feet, cub	approved to divert water. e cumulative volume of walot Developed" next to the 79.3 acr , calculated) Calculation calculated, calculated, key calculated, calculated, sic feet, hours, KwH)	ter pumped appropriate Ce-fee ated Gallons
mplete the water use information for the period location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion. E1/4 Sec. 15 Twp. 148 Rng. 06 Number of acres irrigated from the Location of Acres Irrigated: Pumping Rate 800 Number of hours pumped End of season meter reading Beginning of season meter reading Total Water Use for 2015 Please estimate the number of in	point(s) of diversion listed in one well or pump site is vater use field is required in a first diversion site 1/4 Sec. 1/4 Sec. Pump H.P. 75	below. A point of division of the solution of the point of diversity of the point o	ersion is the location for the location is the location for the location is not diversion, sion is not developed, Rng Rng (circle: Hour me (circle: gallons, (circle: gallons,	crom which you are please provide the please indicate "N Crop Type eter, estimated acre-feet, cub acre-feet, cub	approved to divert water. e cumulative volume of wa lot Developed" next to the pe: Corn 79.3 acr , calculated) Calculation (Calculated) Calculated) sic feet, hours, KwH) sic feet) Gallons	ter pumped appropriate Ce-fee ated Gallons
mplete the water use information for the period location of the irrigated land. If more that om each point of diversion. Only the total wint of diversion.
